NBCO Inspections Programme 2023

- A key aim of the Code of Practice is for regulatory oversight to ensure a culture of compliance with Building Regulations using a risk-based approach to target those who are non-compliant.
- The Code of Practice for Inspecting and Certifying Buildings and Works states that Building Control Authorities 'should adopt a formal policy for the assessment and inspection of building work as notified on the Building Control Management System.
- Target of at least 12-15% of all new buildings.

Promotion of Compliance Data Collection on Building Control Inspection

- Consistency
- Standardisation
- National Co-ordination
- Standard Approaches

"Desktop Technical Assessment"

means an office based assessment checking for compliance with the Second Schedule to the Building Regulations of a valid Commencement Notice (CN)/ 7 Day Notice <u>but excluding</u> normal assessment procedures of Fire Safety Certificates (FSCs) and Disability Access Certificates(DACs) or On-Site Technical assessment of the works for compliance.

"On-Site Technical Inspection"

means a physical site based assessment of the works checking for compliance with the Second Schedule to the Building Regulations. This may include an office based assessment prior to, or after the site visit <u>but this should not be double counted</u> in the column "Desktop Technical Assessment only".

Inspection Pillar – Desktop Technical Assessment

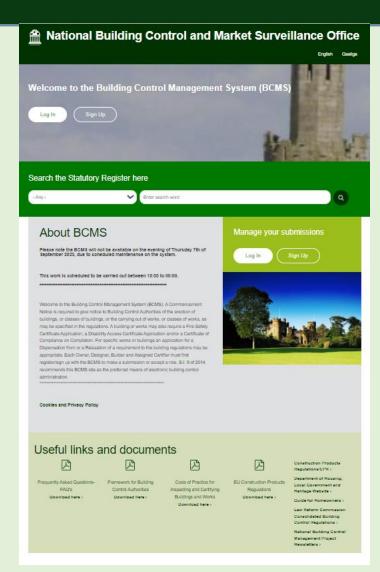

Compliance with Building Control Regulations?

Form of Commencement Notice

- 9. (1) A commencement notice shall be—
- (a) filed electronically on the Building Control Management System or set out in the form for that purpose included in the Second Schedule, and
- (b) subject to paragraph (2), accompanied by—
- (i) <u>such plans, calculations, specifications and particulars as are necessary to outline how the proposed works or building will comply with the requirements of the Second Schedule to the Building Regulations relevant to the works or building concerned, and including—</u>
- (I) general arrangement drawings including plans, sections and elevations,
- (II) <u>a schedule of such plans, calculations, specifications and particulars as are currently designed or as are to be prepared at a later date,</u>
- (III) the completion of an online assessment, via the Building Control Management System, of the proposed approach to compliance with the requirements of the Second Schedule to the Building Regulations,
- (IV) the preliminary Inspection Plan prepared by the Assigned Certifier, and...

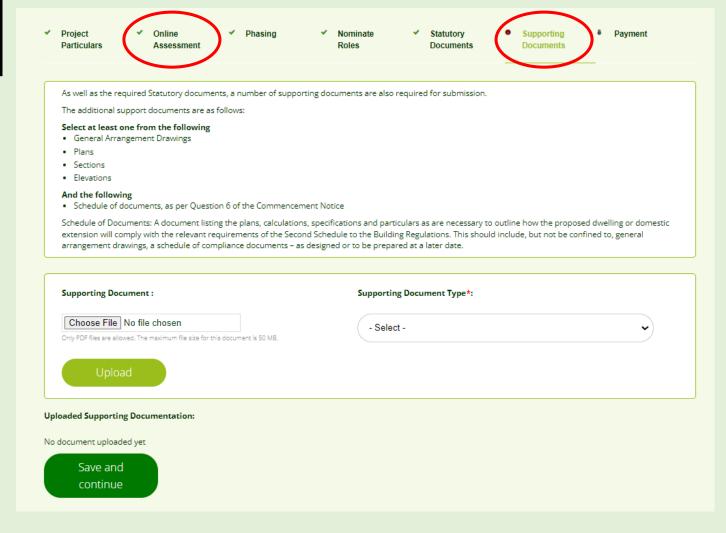

Inspections Pillar – Desktop Technical Assessment

Compliance with Building Regulations?

"Design" Has the meaning assigned to it in the Act of 1990 and includes the preparation of plans, particulars, drawings, specifications, calculations and other expressions of purpose according to which the Construction, extension, alteration, repair or renewal concerned is to be executed and "designed" will be construed accordingly;

- Is the Schedule of Documents as per Q6 of the Commencement Notice; a schedule of such plans, calculations, specifications and particulars as are currently designed or as are to be prepared at a later date?
- Review the plans, calculations, specifications and particulars to check for compliance with the second schedule of the Building Regulations A-M

Inspection Protocol Procedures

Q. What buildings or works to Inspect?

Decision to inspect based on :

Option d

Inspections of Buildings or works

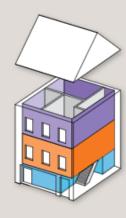

Are we inspecting all types of **Buildings or Works?**

Conversion of an ancillary shop to an independent

shop unit with multiple dwellings overhead

Typical Scale of Intervention

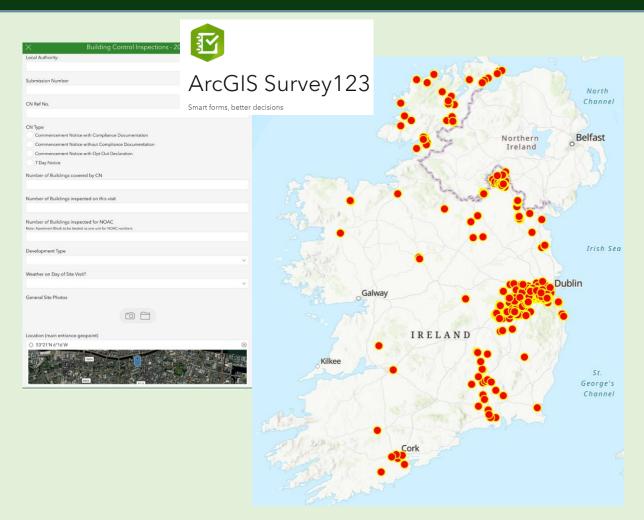

- Building Regulations* apply, as this work is a material change of use to the building. Typical works will include:
- > Fire separation and sound insulation between dwellings/ shop (walls and floors), and access
- > Provision of independent services (including heating, lighting and plumbing)
- > Installation of integrated fire-alarm system for building
- > Upgrade of thermal insulation
- > Replacement of windows (except display
- · Rental Regulations apply in any case where it is proposed to offer a dwelling for rental.**

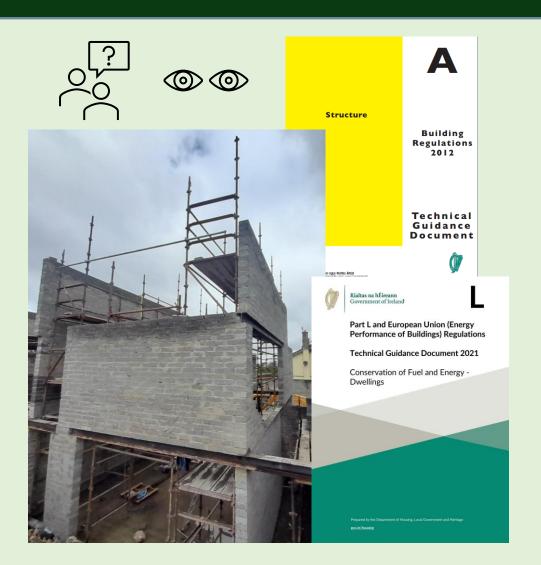

Recording your inspections

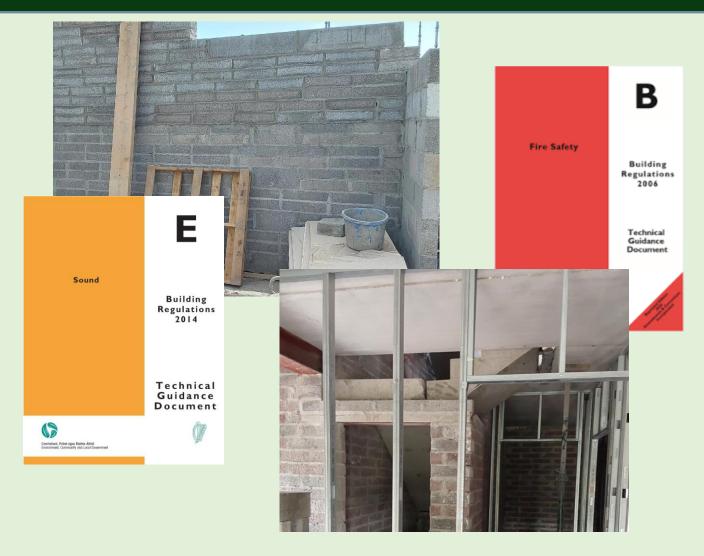

- Standardisation
- Maximising impact

Where inspections are carried out by Building Control Authorities they should make their inspection reports available, on request, to Assigned Certifiers, Builders, or Owners. It is noted that inspections may be limited and subject to the particular compliance requirements for the inspection.

NSAI Agrement Certificates

Insulating Concrete Formwork System

ent (Irish Agrément Board) is designated by Government to issue European Technical Approvals.
ertificates establish proof that the certified products are 'proper materials' suitable for their intended der Irish site conditions, and in accordance with the Building Regulations 1997 to 2019.

2.1.5 External Walls

The different elements of the external wall are as follows, from external surface to internal:

- External render system thickness per certificate holder's requirements
- 64mm/75mm/100mm EPS board (outer leaf)
- Amvic ICF form with 150mm reinforced concrete core width
- 64mm/75mm/100mm EPS board (inner leaf)
- 12.5mm plasterboard slabs screw fixed to the polypropylene connectors
- 4mm gypsum skin coat plaster

The external renders certified for use onto EPS for new build are described in their own Certificates and Section 2.1.12.

ulating Concrete Formwork System

Page 3 of 23

Definition for this Part

D3 In this Part.

"proper materials" means materials which are fit for the use for which they are intended and for the conditions in which they are to be used, and includes materials which:

- (a) bear a CE Marking in accordance with the provisions of the Construction Products Regulation;
- (b) comply with an appropriate harmonised standard or European Technical Assessment in accordance with the provisions of the Construction Products Regulation; or
- (c) comply with an appropriate Irish Standard or Irish Agrément Certificate or with an alternative national technical specification of any State which is a contracting party to the Agreement on the European Economic Area, which provides in use an equivalent level of safety and suitability.

"Agreement on the European Economic Area" means the Agreement on the European Economic Area between the European Union, its Member States and the Republic of Iceland, the Principality of Liechtenstein and the Kingdom of Norway as published in the Official Journal of the European Communities (O.J. No. L1, 03.01.1994, page 3).

"Construction Products Regulation" means Regulation (EU) No. 305/2011 of the European Parliament and of the Council of 9 March 2011 laying down harmonised conditions for the marketing of construction products and repealing Council Directive 89/106/EEC.

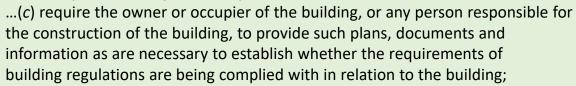

ΙZ

Section 11 Request following an Inspection

Building Control Act 1990

Powers of Inspection by Authorised persons

11-(3) Any authorised person may—...

Part A Structure (Note also Technical Guidance Document Part A structure 2012) The Requirements

A1 Loading (Section 1)

- (1) A building shall be designed and constructed, with due regard to the theory and practice of structural engineering, so as to ensure that the combined actions that are liable to act on it are sustained and transmitted to the ground -
 - (a) Safely, and
 - (b) Without causing such deflection or deformation of any part of the building, or such movement of the ground, as will impair the stability of any part of another building.
- (2) In assessing whether a building complies with sub-paragraph (1), regard shall be had to the variable actions to which it is likely to be subjected in the ordinary course of its use for the purpose for which it is intended.

A2 Ground Movement (Section 1)

A building shall be designed and constructed, with due regard to the theory and practice of structural engineering, so as to ensure that movements of the subsoil caused by subsidence, swelling, shrinkage or freezing will not impair the stability of any part of the building.

Submit such plans, summary calculations (of main structural elements), documents, and information to show that the requirement of A1 Loading are being complied with in relation to your building.

(In relation to the following structural element:)

- (b) Foundation
- (c) Walls

National Building Control Office Frequently Asked Questions (FAQ)

FAQ 65. Is a Commencement notice required for Temporary Accommodation, Modular (MMC) Accommodation for People Fleeing Countries, Glamping Pods/Glamping Sites

- A "Dwelling" as defined for Building Control purposes is defined as —"A house or flat, forming a separate unit of residential accommodation."
- A "Temporary Dwelling" as defined for Housing (Miscellaneous Provisions) Act purposes is defined as "any tent, caravan, mobile home, vehicle or other structure or thing (whether on wheels or not) which is capable of being moved from one place to another, and—(a) is or was used for human habitation, either permanently or from time to time, or (b) was designed, constructed or adapted for such use".

In General, all such accommodation(inhabited by people) requires the submission of a Commencement Notice and must comply with the relevant requirements of the Building Regulations. These buildings/dwellings contain "habitable rooms".

- To Check Commencement Notice requirements, refer to "Bringing Back Homes Manual for the Reuse of Existing Buildings" https://www.gov.ie/en/publication/68a5b-bringing-back-homes-manual-for-the-reuse-of-existing-buildings/ Flowchart to establish if a Commencement Notice is required, P78 & P79.
- S.I. No. 497/1997 Building Regulations, 1997-Schedule 3 Exempted Buildings Miscellaneous;
 - CLASS 10, A temporary dwelling as defined in the Local Government (Sanitary Services) Act, 1948 (No. 3 or 1948).
 - · CLASS 13, A building of a temporary nature erected on a site for a period not exceeding 28 consecutive days or 60 days in any period of 12 months, Local Government (Sanitary Services) Act, 1948

"temporary dwelling" means any— (a) tent, or

- (b) van or other conveyance (whether on wheels or not), or
- (c) shed, hut or similar structure, or
- (d) vessel on inland waters, used for human habitation or constructed or adapted for

Any shed hut or similar structure are not considered "dwellings" (houses or flats). Their use or temporary dwellings implies a time limit. Under class 13 the time restriction is fundamenta

If Planning Permission is required and/or A Fire Safety Certificate is required, the Building Con required under Part II of the Building Control Regulations.
